December 2023

## *Precision Parts and Remanufacturing*

*"PPR is committed to consistently deliver high quality remanufactured products, on time, and accurately, through a team dedicated to continual improvement."*

2023 is nearly over, as we end this year, PPR would like to take a moment to thank each and every employee for helping move forward and making PPR as success. We have made many changes, updates and progress towards a growing future.

As we continue to grow there are obstacles to overcome. Our challenges can be meeting production goals, meeting quality objectives, adapting to new systems or machines, training, etc.

Communication is essential to our progress. If you see an issue, tell someone. Tell a supervisor, manager, co-worker Take notes of issues, questions or concerns, write them down on the PWO or a separate note pad. By increasing awareness, we can increase the speed of solving problems. Once an issue is communicated, addressing it must be done as soon as possible.

**We've accomplished many great things in 2023 and are looking forward to an amazing 2024!!**
