Precision Parts and Remanufacturing

"PPR is committed to consistently deliver high quality remanufactured products, on time, and accurately, through a team dedicated to continual improvement."

Manufacturers with quality control procedures in place are far less likely to face product recalls or place customers at risk from poorly made products. Our goal is always to keep quality control in focus, ask questions, work hard, and we will all reap the rewards.

Benefits of Using Quality Control

Customers expect and demand high-quality products. When customers receive quality products it will benefit the whole company in many ways:

- Increase customer loyalty
- Gain repeat business
- Gain new customers from referrals
- Maintain or improve your position in the market
- Improve safety
- Higher Productivity
- Reduce liability risks
- Contribute to overall positive branding of your product
- Higher Profitability
- Elimination of waste and defects

PPR will be conducting a fire drill on Thursday May 18th, 2023 1:05pm
